CERTIFICATE OF HIGH SCHOOL ACHIEVEMENT REQUIREMENTS

For students enrolled in Knowledge and Employability Program

K & E program is a program intended for students who are challenged in completing academic courses. The K & E courses is focused on developing skills necessary for everyday living at home, in the community, and on the job. While basic skills development in the academic program is directed at improving students' abilities to communicate, compute, and socialize, the practical arts/occupational courses provide opportunities for students to apply these skills.

The K and E courses, and in particular the practical arts and occupational courses, all have a community partnership component. Community partnership opportunities also provide a means of enhancing students' social skills and self esteem while providing occupational preparation for entry into the world of work. Integration of students into the school environment is encouraged. Whenever possible, students in this program are expected to enrol in regular classes such as physical education, CALM, art, music, or drama.
